

GQ-3220C

5 Axis Bridge Cutting Machine

Cutting Function Display

Machine Features

- 1.XYZAC five axis, A axis 0 to 90 degrees automatic rotation, C axis 0 to 360 degrees automatic rotation.
- 2.Vertical and horizontal cutting, multi-angle diagonal cutting.
- 3.Cutting straight line, curve lines, circle, oval, arc, grid point.
- 4.Slotting, edging, beveling, chamfering and cutting.
- 5.Cut sink holes, drill faucet holes.
- 6.Control system can read NC code and CAD program.
- 7.Table tilts 85 degree to load slabs easily.

Applicable Industry & Material

Applicable industry: sintered stone application industry, fabricated building materials industry, home decoration materials industry, cutting marble, artificial stone, quartz stone and other materials.

Applicable material: sintered stone, ceramic plate, quartz stone, marble, etc.

Technical Parameters

Model	GQ-3220C
X/Y/Z Axis working size	3200*2000*500mm
Diameter of blade	350mm
Working table size	3200x2000mm
Blade Motor power	15KW
Total power	29KW
Rotation speed of blade	3000/6000rpm (Optional, adjustable)
A axis rotation angle	0°-90°
C axis rotation angle	0°-360°
Table Tilting angle	85°
Control system	GANGER
Gross weight	4500KGS
